- Who: **Team Leader**

Sport Hall and Fitness

A Sport Hall and Fitness are available at Hotel Dom Planica.

Contact for Reception desk:
+386 458 84 570

Radio devices

The Organizing Committee coordinates all frequency control on the equipment.
all the radio devices must be registered.

The ones used for the event by the teams, will be picked up by team member at frequency check:

22.2.2023, 15:00 – 17:00

Container next to the First Aid and Police (near to the athletes Village)

It is not allowed to set up and use private WI-FI networks or similar and/or other devices operating in the 2.4. and 5 GHz frequency bands within the venue in Planica.

Antidoping information

The doping control station is located in the CC stadium building, lower floors (level -3).

Medical supervisor
Anti-doping Coordinator

dr Stanislaw Szymanik
Vanda Wallace-Jones, FIS

Chairlift back up plan

In the case of electricity failure or not working chairlift, transportation by Van will be organized. Athletes will be picked up at the entrance to the lift station.

There will always be enough Vans on standby at the venue.

Medal Ceremonies

The medal plaza is about 9 km or a 10-minute drive away from the Planica Nordic Centre and is located in Kranjska Gora, next to the Kompas Hotel.

Medal ceremonies are foreseen at **20:23** local time.

Top 3 athletes at individual events and top 3 teams in team events will be present at the medal ceremony.

Flower Ceremonies and Press Conferences

The Flower Ceremony will take place immediately after the competition at the CC stadium and it will be held for the athletes and teams ranked 1 – 3.

The press conference for the top three athletes will be held after each competition in the media center in Planica.

After the flower ceremony, the winning athletes will receive all information for medal Ceremony.

Drone operation Planica

Mr. Robert Sušanj
Flight operations coordinator

AIRTIME FPV VISION + ABOVE MEDIA AS

Concept of Operations for Ski Jumping Live Drone in the
SPECIFIC CATEGORY

HS138 + GENERAL OVERVIEW

GENERAL

First Person View – FPV drone flying behind ski jumpers
for live broadcast

The operation is divided in two phases:
"HOT ZONE" & "COLD ZONE"

- HOT ZONE: when the drone is following the athlete –
HIGH SPEED
- COLD ZONE: when the drone is on the transportation
paths – SLOW SPEED

DRONE CAMP (pos. 0)

The drone camp's position is crucial for a safe operation.
This implies visual line of sight "VLOS" to the drone at all
times. The suggested position is the second top level of
the TV tower, as the top level is occupied by two camera
platforms (Alternative positions TBD)

SYSTEM IN USE

- Custom built FPV drone
- AUW: approx. 850 grams
- Max characteristics: 41cm

LEGEND

- PINK = HOT ZONE and main flight path
- BLUE = COLD ZONE 1 transportation route
- GREEN = COLD ZONE 2 landing/takeoff route
- RED = HOT ZONE barrier guard blockage
- POS 1 = Start of HOT ZONE
- POS 2 = End of HOT ZONE
